## Fire at Syn-Tech in Taiwan

Dear Customers,

We regret to inform you that Syn-Tech Chem. & Pharm., Co Ltd. had a fire accident on May 20. Fortunately, nobody of the employees or the firefighters were injured.

The production facility where Epinephrine and Epinephrine bitartrate are produced are not affected at all. The same applies to raw & starting material warehouse, finished product warehouse and QA/QC labs. Nevertheless, a detailed review and investigation is currently underway.

Due to our extensive stockpiling program at our German site, Transo-Pharm can easily compensate such an event and can continue the supply of both APIs according to the existing demands and forecasts.

Please be assured that we continuously keep you updated on the status at our partner in Taiwan.

**Transo-Pharm  
Handels-GmbH**

i.V. Stefan Bertram  
Product Manager
